**I**nspiration and collaboration are the perfect ingredients for creating groundbreaking designs. As the Owner and CEO of Kimberlee Marie Interiors, Kimberlee Gorsline has spent the past 14 years applying these simple, yet powerful ideals to building an outstanding reputation and exceptional design portfolio. "Travel is a leading source of inspiration for me," the Gold List Honoree says. "I love how architecture brings history to life and am endlessly fascinated by the colors, patterns and old-world craftsmanship found throughout Europe and Latin America. I also love that culture impacts design and tells the story of the people who lived there. It's

the same impact I want my designs to bring my clients." When it comes to clients, Gorsline and her award-winning team take a collaborative approach to delivering environments that are beautiful, functional and highly personal. "Because the client is the foundation for our creative process, we spend a lot of time getting to know them," Gorsline shares. "Understanding their aesthetic sensibilities, their daily rituals and routines and the things they value most ensures that the spaces and environments we create for them not only fulfill their dreams the first time they walk through the door but continue to do so for many years to come."

## ASK THE EXPERT

### Describe the style you're best known for.

Because our projects reflect each client's unique story, we work in a number of styles. The one constant is that we design warm, thoughtful spaces inspired by exceptional experiences and infused with character.

### Share your greatest success.

My greatest success isn't what I've achieved but who I've become while growing my firm. Being a lifelong learner who's very self-aware has allowed me to grow creatively and build a team and business I'm incredibly proud of.

### What are your future goals?

We're hoping to move into a new studio space this year. We also want to continue designing sustainable spaces that keep each client's physical, emotional and spiritual well-being in mind.
